Individual courses, 45 ECTS, 2008-2010

Digital Images, Music Law from a Trade perspective, Film Music and Music Theory

Work experience

Transmission Engineer, MTG Broadcast Centre AB, Stockholm, Mars 2013-

I'm currently working in the Master Control Room in the MTG building on Ringvägen, Stockholm. My work includes monitoring the Swedish, Finnish and Danish linear Viasat Sport TV channels, as well as ingest and editing of various highlight shows and re-runs. I'm also in charge of the ten media server play lists, currently feeding the TV channels, as well as sporadic troubleshooting and maintenance of the broadcast equipment.

Live Sound Engineer, Freelance, Falun, 2010-2013

Freelance concert work as a Sound Engineer all around Dalarna and Stockholm. My work included rigging, sound checking, live mixing (Front-of-House, monitors) and live recording. The goal was always maximum sound quality and audience experience. I worked for clients like JH Showbiz, Cirkus Scott, Peace & Love festival, Falu Jazzklubb, Local Crew and more.

Warehouse employee, Various employers, Stockholm and Falun, 2008-2012

I have worked in several warehouses, including the Swedish Postal Service, in Stockholm, the media equipment department of Dalarna University as well as the PA equipment warehouse at JH Showbiz in Falun.

Salesman and Customer Service agent, Teleperformance Nordic AB, Stockholm, 2007-2008

The first three months included telephone sales work with mainly Teliasonera products, after which I switched to the customer service of the mobile network Tre.
